Strive to Revive: Improving Cardiac Resuscitation

SYMPOSIUM PLANNING COMMITTEE

Melina Aguinaga-Meza, MD
Assistant Professor of Medicine, University of Kentucky Gill Heart Institute

Alison Bailey, MD
Director of Ambulatory and Preventive Cardiology, Associate Professor of Medicine, University of Kentucky

Starr Block, MS, BSN, RN
Senior Director American Heart Association/American Stroke Association

Sara Brouse, PharmD, FCCP, BCPS
Adjunct Associate Professor at UK College of Pharmacy

Sean Davenport, CCEMT-P
Staff, UK Healthcare, Emergency Department

Patricia Howard, PhD, RN, CEN, CPEN, NE-BC, FAEN, FAAN
Director of Emergency Services, UK Healthcare

Pamela Lane, BSN, RN
Patient Care Manager, Command Center, UK Healthcare

Walter Lubbers, MD
Assistant Professor of Emergency Medicine, University of Kentucky College of Medicine

Kathy Semones, MSN, BSN, RN
Director of Capacity Management, UK Healthcare

Susan Smyth, MD, PhD
Chief, Division of Cardiovascular Medicine, University of Kentucky Gill Heart Institute, Jeff Gill Professor of Cardiology

**Strive to Revive:**
Improving Cardiac Resuscitation

**KEYNOTE SPEAKER**

Vincent N. Mosesso, Jr., MD, FACEP, EMT-P joined the UPMC/Pitt SOM faculty in 1991 and has been active in teaching, research, clinical care and administrative service. He works clinically as Attending Physician in the Presbyterian Emergency Department and the UPMC Medical Communications and Commercial Airlines Consultation Center. He serves as Director of the Pre-hospital Care rotation for the EM residency program and Medical Director for UPMC Pre-hospital Care. He is medical director of several EMS agencies and of the NAEMT’s Advanced Medical Life Support program. Dr. Mosesso has been very committed to education at all levels and teaches courses for medical students, residents, EMS providers and other health professionals. Dr. Mosesso has authored over 40 peer-reviewed papers with a focus on cardiac arrest and automated external defibrillators, and is on the editorial board for two journals. He served on the EMS Examination Task Force and is currently a member of the EMS Examination Committee for the American Board of Emergency Medicine.

**FACULTY AND AGENDA**

**An Overview of Resuscitation Management**
Vincent Mosesso, MD

**Pre-Hospital Resuscitation: What Does the Evidence Say?**
Walt Lubbers, MD

**Best Practices in Hospital Resuscitation Response Teams**
Timothy McFeely, MBA, BSN, RN, ANCC

**Therapeutic Hypothermia: Where Do We Stand?**
Melina Aguinaga-Meza, MD

**The Use of ECMO in Post Cardiac Arrest**
Allison Bailey, MD

**What is the Future of Epinephrine in Cardiac Arrest: Pros and Cons**
Melissa Thompson Bastin, PharmD, BCPS and Kornal Pandya, PharmD, BCPS

**An Overview of Pediatric Resuscitation**
Michael Wittkamp, MD

**Surgical Resuscitation Management in Poly-Trauma Patients**
Andrew Bernard, MD

**SYMPOSIUM DETAILS**

This program is designed to provide hospital clinicians and resuscitation professionals with the most recent resuscitation science and research including: an overview of resuscitation management, pre-hospital resuscitation, in-hospital response teams, therapeutic hypothermia, use of ECMO, future of epinephrine and an overview of pediatric resuscitation. Our goal is to reach hospitals across the region to support resuscitation efforts and share knowledge of recent science, with the aim of helping hospitals improve resuscitation processes and survival rates. **The cost of the symposium is $40.00.**

**TARGET AUDIENCE**

Hospital clinicians and medical professionals with an interest in resuscitation, such as:

- Emergency Room Physicians
- Emergency Room Staff
- Cardiologists, Internal Medicine, Family Medicine, Surgeons, Anesthesiologists, Hospitalists and Critical Care Specialists
- Nurses and Nurse Practitioners
- MET, RRT, Resuscitation & Code Team members
- CPR Trainers including EMT’s and Paramedics
- Quality Improvement staff
- Administrators and other hospital based staff that interface with emergency response in their facility
