Join or Renew Your AHA/ASA Professional Membership

The four-tiered Professional Membership program is tailored to the career and involvement levels preferred by cardiovascular and cerebrovascular clinicians, scientists and healthcare providers. http://www.americanheart.org/presenter.jhtml?identifier=645

Kidney Council Involvement Form

Complete and submit the form at http://www.americanheart.org/presenter.jhtml?identifier=3048878 to express your interest in the committee of your choice. We will contact you if an opportunity arises that fits your area of expertise.

Hypertension

Hypertension is one of five American Heart Association journals accessible online. It represents the Council for High Blood Pressure Research and the Council on the Kidney in Cardiovascular Disease, and is in cooperation with the Inter-American Society of Hypertension. http://www.americanheart.org/presenter.jhtml?identifier=3003996

You Are the Heart of Our Success.

You don’t have to be a top lobbyist to call on elected officials—just a medical professional willing to deliver a lifesaving message to policymakers whenever you can. Join You’re the Cure, a nationwide network of people dedicated to finding cures for heart disease and stroke.

Save Lives With A Simple Procedure: Advocacy

• Become one of the many doctors, nurses, scientists, researchers and health professionals who advocate with the American Heart Association.

• Advocate for more research and prevention funding as well as other public policies that lead to cures for heart disease and stroke.

Member Benefits

• You get everything you need to be an effective advocate: a welcome packet; action alerts to call, write or visit policymakers; education on your elected officials; updates on important issues; and helpful tips to make it all easy.

Heart Disease and Stroke. You’re the Cure. www.americanheart.org/yourethecure

Yes, I want to join You’re the Cure.
