

**WE HELP
hospitals make
measurable
improvements.**

**As well as the
kind that can't
be measured.**

Get With The Guidelines®

is a program that helps hospitals apply American Heart Association/American Stroke Association guidelines to the treatment of heart disease and stroke. Hospital teams that have demonstrated high levels of achievement in Get With The Guidelines have earned a place on these pages — and in the hearts of countless patients and families.

Learn more at americanheart.org/quality.

When heart attack patients recover, they may not know whom to thank. Good thing we do.

Cardiac emergencies can seem like one big blur to patients, leaving them unable to recognize the caregivers who saved them. All the more reason we should. The hospitals listed here have earned recognition for their performance in Mission: Lifeline™, a program that helps close gaps to ensure prompt care for patients with ST segment elevation myocardial infarction (STEMI), the type of heart attack that requires immediate treatment to save heart muscle and lives. [Learn more at americanheart.org/quality](http://americanheart.org/quality).

The following hospitals have met all Mission: Lifeline recognition criteria for the specified timeframe, including registration, ACTION Registry®-GWTG™* participation, volume requirements and benchmarks.

Hospitals recognized at the Bronze level are included in the inaugural year of the Mission: Lifeline recognition program.

The following award-winning hospitals are recognized for 12 consecutive months at 85% or higher composite adherence with no single measure below 75% with data aggregated over the 12-month period on all achievement measures

Columbus Regional Hospital, Columbus, IN
Ministry Saint Clare's Hospital, Weston, WI
Plaza Medical Center of Fort Worth, Fort Worth, TX
Wheeling Hospital, Wheeling, WV

The following award-winning hospitals are recognized for 90 consecutive days at 85% or higher composite adherence with no single measure below 75% on all achievement measures
