How it works

Any educator or student can facilitate the 30-minute session as students practice on a Mini Anne Plus manikin while watching and learning CPR skills on the DVD. This method is a research-proven way for students to learn and retain the lifesaving skills of CPR. Students can learn Hands-Only™ CPR or CPR with breaths. Students can take home a manikin and DVD from the kit to train family and friends too.

When lives are at stake, don't settle for less. Insist on quality training from the leader in Emergency Cardiovascular Care: the American Heart Association.
