If someone shows any of these symptoms, even if the symptoms go away, call 9-1-1 and get the person to the hospital immediately. Check the time so you’ll know when the first symptoms appeared.

**Is speech slurred?**

Is the person unable to speak or hard to understand? Ask the person to repeat a simple sentence, like “The sky is blue.” Is the sentence repeated correctly?

**Is one arm weak or numb?**

Ask the person to raise both arms. Does one arm drift downward?

**Does one side of the face droop or is it numb?**

Ask the person to smile. Is the person’s smile uneven?
