Spot a Stroke F.A.S.T.

F.A.S.T. is an easy way to remember the sudden signs of a stroke.

**Face Drooping**
Does one side of the face droop or is it numb? Ask the person to smile.

**Arm Weakness**
Is one arm weak or numb? Ask the person to raise both arms. Does one arm drift downward?

**Speech Difficulty**
Is speech slurred, are they unable to speak, or are they hard to understand? Ask the person to repeat a simple sentence, like “the sky is blue.” Is the sentence repeated correctly?

**Time to Call 9-1-1**
If the person shows any of these symptoms, even if the symptoms go away, call 9-1-1 and get them to the hospital immediately.

Beyond F.A.S.T. – Other Symptoms You Should Know

- Sudden numbness or weakness of the leg
- Sudden confusion or trouble understanding
- Sudden trouble seeing in one or both eyes
- Sudden trouble walking, dizziness, loss of balance or coordination
- Sudden severe headache with no known cause
