

You're Invited to Join the Hospital Network Online Community!

The American Heart Association/American Stroke Association welcomes you to the Hospital Network! We believe that you shouldn't go it alone, and that there should be a place where you can find support, resources, and the ability to ask questions and receive answers from other experts in the field.

We invite and encourage all members from our American Heart Association/The Joint Commission certified centers to join this online network. When you do, you will find dozens of resources already populated in the resource library—everything from Target Stroke initiatives, promotional material, and much more! This network will also provide a forum for you to post questions, participate in discussions, and connect with other stroke centers.

When you visit <https://hospitalnetwork.heart.org> please follow the below instructions to join the network:

1. Click the "JOIN" button on the [Hospital Network](#) home page. You will be taken to the American Heart Association common sign in page.
2. If you have not logged in to this site previously, click on "create an account". Please use your work email when registering.
3. If you already have an account, input your username and password (*for the American Heart Association common sign in page*) and click the "Sign In" button.
4. Once your credentials have been confirmed, you will be taken back to the Hospital Network site.
