## PARTICIPANT

North Olympic Healthcare Network  
 Sea Mar Community Health Centers

TARGET:BP™

Target: BP is a national collaboration between the American Heart Association and the American Medical Association aimed at reducing the number of Americans who suffer from heart attacks and strokes each year by urging physician practices, health systems and patients to prioritize BP control.

Recognized clinics have demonstrated a commitment to quality improvement and measurement accuracy while those achieving Gold+ designation also achieved 70% or better control rates for 2020.

American Heart Association.

Target: Type 2 Diabetes<sup>SM</sup>

The Target: Type 2 Diabetes ambulatory program is a quality improvement and recognition opportunity for organizations providing outpatient care related to type 2 diabetes and cardiovascular risk factors. Brought to you by the American Heart Association and Know Diabetes by Heart™, the initiative brings together resources, regional support, education, and recognition to target clinical improvement and acknowledge organizations for their impactful changes.

Recognized clinics have demonstrated a commitment to quality improvement while those achieving Gold designation achieved a 2020 annual rate of 25% or less on MIPS #001 (Hemoglobin A1C Poor Control) AND either an annual rate of 70% or greater or MIPS #438 (Statin use for Prevention and Treatment of CVD) or MIPS #236 (Controlling High Blood Pressure).

American Heart Association®

Check. Change. Control.  
Cholesterol™

The American Heart Association is pleased to recognize these organizations for their commitment to reducing the risk of heart disease and stroke through improved cholesterol management. This initiative aims to improve awareness, detection, and management of high cholesterol by educating and empowering consumers, healthcare professionals, and patients with evidence-based information and tools, while also improving quality of care for patients through American Heart Association's quality improvement programs.

Recognized organizations have committed to improving ASCVD risk assessment and submitted data on appropriate statin therapy. Gold designation fulfilled the Participation Award criteria AND have 70% or more of their adult, at-risk ASCVD patient population appropriately managed with statin therapy based on MIPS measure #438.
