For drowning, the American Heart Association recommends rescue breaths along with compressions.

Half of all boating deaths could be prevented with their use.

Drowning is the leading cause of death in children between ages 1 and 4.

Install fencing with self-closing gates at least 4-feet high to separate the pool from the house and yard.

Talk about risky behavior: diving or swimming in unfamiliar water, and alcohol or drug use while in or near water.

It’s important for everyone in the family to be trained in CPR.

Make sure children aren’t tempted to play unsupervised.
