TARGET:BP™

Target: BP is a joint initiative of the American Heart Association and American Medical Association to drive better clinical practices and patient outcomes around hypertension control.

Recognized clinics have demonstrated a commitment to quality improvement while those achieving Gold designation achieved 70% control or better for 2019 as defined by NQF #0018.

American Heart Association.

## Target: Type 2 Diabetes<sup>SM</sup>

The Target: Type 2 Diabetes ambulatory program is a quality improvement and recognition opportunity for organizations providing outpatient care related to type 2 diabetes and cardiovascular risk factors.

Brought to you by the American Heart Association and Know Diabetes by Heart™, the initiative brings together resources, regional support, education, and recognition to target clinical improvement and acknowledge organizations for their impactful changes.

Recognized clinics have demonstrated a commitment to quality improvement while those achieving Gold designation achieved a 2019 annual rate of 25% or less on MIPS #001 (Hemoglobin A1C Poor Control) AND either an annual rate of 70% or greater on MIPS #438 (Statin use for Prevention and Treatment of CVD) or MIPS #236 (Controlling High Blood Pressure).

American Heart Association.

Check. Change. Control.  
Cholesterol™

The American Heart Association is pleased to recognize these organizations for their commitment in improving the health of their patients through high quality Cholesterol and Atherosclerotic Cardiovascular Disease (ASCVD) Risk Factor Management.

Recognized organizations have committed to improving ASCVD risk assessment and implementing ASCVD risk calculations into their clinical workflows. Gold designation fulfilled the Participation Award criteria AND have 70% or more of their adult, at-risk ASCVD patient population appropriately managed with Statin therapy based on MIPS measure #438.
