HEART BALL AMBASSADOR PROGRAM

Ambassadors are a select group of high school students who participate in educational and social activities throughout the program. Ambassadors will be recognized and presented at the American Heart Association's Heart Ball. Program activities will take place during the 2026–2027 school year.

The Ambassador program offers a fun, interactive experience that helps develop the next generation of heart advocates and community leaders.

Becoming an Ambassador is an excellent résumé builder. Ambassadors gain valuable leadership development skills and have the opportunity to network with peers and members of the business community. Participation in required sessions also counts toward community service hours, with 15+ hours earned.
