The American Heart Association is committed to improving care delivered to cardiac patients nationwide and we want you to continue this journey with us. Flexible enrollment options have been created to meet the varied needs of hospitals and Mission: Lifeline® Systems. ALL options include Mission: Lifeline® participation, quarterly regional reports, AHA Field Staff consultation and recognition from the American Heart Association. The table above outlines the main benefits associated with each of the three GWTG-CAD enrollment options and can assist when weighing which option best suits your facility. For a GWTG-CAD demo or for additional questions, please contact your local AHA Quality and Systems Improvement Director or email [MissionLifeline@heart.org](mailto:MissionLifeline@heart.org).
