About the Bi-State Stroke Consortium

The Bi-State Stroke Education Consortium is composed of twenty nine health organizations and the American Stroke Association. These organizations have agreed to collaborate to enhance the educational opportunities for providers of stroke care across the continuum. Continuing nursing educational credit will be provided by each sponsoring agency.

The goal of this consortium is to provide evidenced based education emphasizing best nursing practices and patient outcomes adhering to the Brain Attack Coalition Guidelines or Evidence Based Practice.

1. Each organization in the consortium will provide one four hour nursing continuing education offering each year to all members of the consortium and EMS staff free of charge. A fee may be charged for non-hospital or non-consortium members. This fee is determined by the offering hospital.

2. See your institution’s representative six weeks prior to the program for monthly brochures. Please wait to contact the representative until the brochure has been released.

3. Pre-registration is required in writing and space may be limited by the provider on a first come first serve and/or space available basis. All cancellations require 48 hour notice prior to the program.

At the program offerings, provision of refreshments is optional and not required of the participating organizations. Please plan accordingly.

Consortium Members

American Stroke Association
Beth Malina

Ability KC
Nancy Peterson

American Stroke Foundation
Jane Henderson
Jeanette Boucher

Belton Regional Medical Center
Denise Culver

Cass Regional Medical Center
Vi Warren

Centerpoint Medical Center
Shekinah Roe
